

Our club, the Weightlifting and Free-time Sport Club of Soroksár organizes its exercise educative program that gives space for human values through sport for the 15th time in 2012. Most of our invited partners (Slovakia, Czech Republic, Poland, Lithuania, Spain, Switzerland, Estonia, Latvia, Nederland, Serbia, Italy, in progress with Croatia, Russia, Bosnia-Hercegovina) delegate children of families at a disadvantage to this event, with the aim being to popularize sport and a healthy life through entertaining events, help the integration of children at a disadvantage all over Europe by bringing "life" closer through interactive events.

First we reach the children, through them their parents and the family, and with time and a lot of work we can reach a much broader spectrum of society. Our achievements and efforts are clearly visible all over Europe. We do this uniquely in the South-Pest region for more than 20 years!

The highlight of this event is the weightlifting championship, where everyone can show his/her readiness to receive their prizes. The attendants, spectators and visitors will have the chance to see the achievements of the next generation which they can also utilize in their family and civil organization.
